Kelley Subpoenaed By Socialist Fighting University Ouster

PHOENIX, Ariz., Nov. 19 (UPI)—FBI Director Clarence M. Kelley has been subpoenaed to appear in connection with a case involving a self-avowed Socialist fighting to regain the teaching job he lost at Arizona State University in 1970.

Roger Young, assistant agent-in-charge of the Phoenix office of the FBI, said he accepted the subpoena Thursday on behalf of Kelley, who was here to address a civic luncheon.

Young said a man wanted to serve Kelley in person at the luncheon but he handed the subpoena to Young when the agent promised to give it to Kelley.

The subpoena orders Kelley to appear Dec. 13 in the case involving Morris Starsky, fired as an associate professor of philosophy for misconduct.

Starsky has asserted that the FBI mailed an anonymous letter to members of an ASU faculty committee considering disciplinary action against him. Starsky said the letter was a fabrication and slanderous.
